

Why Jujutsu Kaisen Will Be In “The Big 3” Of Anime

By: Michael Thomas

Introduction

Jujutsu Kaisen is my favorite anime and I believe it has the potential to be able to be one of the best animes ever. This show and the energy it gives me whenever I watch it makes me firmly believe that this is the best show out right now and everyone should be watching this. Since that is the case I think this show should be considered to be in the big 3 of the new generation of anime.

Background Information/Opinion Statement

1. The creator borrowed ideas from other animes like Bleach, Naruto, and Hunter X Hunter.
2. Different characters in the shows are based off of the creators brothers and family.
3. Gege Akutami is the stage name of the creator and nobody knows his real name.
4. Some of the antagonist are based off of Japanese folklore and history.

Reason 1

Even though Jujutsu Kaisen is a fairly new anime it has won many awards over other animes and it only had like 7 episodes out for example

1. Anime of the Year – JUJUTSU KAISEN
2. Best Ending Sequence (ED) – LOST IN PARADISE (ALI feat. AKLO), JUJUTSU KAISEN
3. Best Antagonist – Ryomen Sukuna, JUJUTSU KAISEN

Reason 2

Jujutsu Kaisen has many important details to why it is such a amazing anime which helps turn it into the masterpiece it is now. For example.

- How they use Horror to set the tone and mood of the show.
- There is no plot armor so there is serious risks and anything can happen.
- There are no fillers in the show.
- The creativeness of the characters powers and all that.

Reason 3

Jujutsu Kaisen has broken plenty of records to show how it is one of the best animes out right now. With Manga and the actual Anime. For example.

Jujutsu Kaisen, the manga just broke its own record of 30 million copies with a new record of 40 million copies in circulation.

This is so good this beats a lot of good animes that have been out for decades.

Counter Argument

I feel like the only counter argument about the show is the facts that the actual anime has not been out for a long time and how there is not even a full season of it out there are currently only 24 episodes out of the show so since that is the case people use that as a excuse for it to not be the best it can be.

Conclusion

I still firmly believe that Jujutsu Kaisen will be in the “Big 3” of all anime for many good reasons and this show should be watched by as many people as possible because I love the show.
