

Autobiographical Collage

By: Alauna Marable

3rd Hour- Speech I

~Intro~

- The purpose of this collage is to share with you guys my sports journey over the years.
- Growing up, I never played only one sport. I would have one or two sports right after school then my main sport which was outside of school.
- Here is my short journey through my main sports growing up.

Early Childhood And Family

- I was born in Livonia,
Michigan on March 25,
2005
- I have two younger brothers
- Besides my mother and
brothers, I grew up with my
grandparents and cousins.

Cheer

- I started cheering when I was 5 for the Detroit Broncos, which is apart of PAL
- While cheering for PAL, I got to cheer at competitions, at Ford Field, cheer on the news, and cheer for and greet city officials at events.
- I stopped cheering when I was 11 after a year of All Star cheer, but I did it again for my 9th grade year at Cass.

Dance

- I danced when I was 3 and 4 for Windsor Dance Academy and The Zone Dance Center.
- I went back to The Zone when I was in 5th grade for three years and trained in all styles of dance.
- In 8th grade, I switched to Studio Detroit Dance Center and did competitive dance for a year
- During this year, my group won 1st place in our jazz and hip-hop routine.

- I started playing volleyball in 7th grade for my school but it was really just for fun.
- In 8th grade, I started taking it seriously so for my 9th grade year I played AAU for PAL Club.
- I currently play volleyball for cass and I plan to play AAU for XTREME Volleyball in November.

Keep your distance

~Conclusion~

- Sports and I have always had a rocky relationship. In between these sports listed above, I've played soccer, ran track, and was a gymnast. I didn't stick to one sport not because I didn't like it, but because I didn't know which one was right for me. As of now, volleyball fits me. It's the only sport I'm playing plus it's something I want to continue in college. Even though I didn't stick to the sports for long, each one left a mark on me. They each played a part in shaping the character that I have today.
